Key objectives of the project and how these have been met

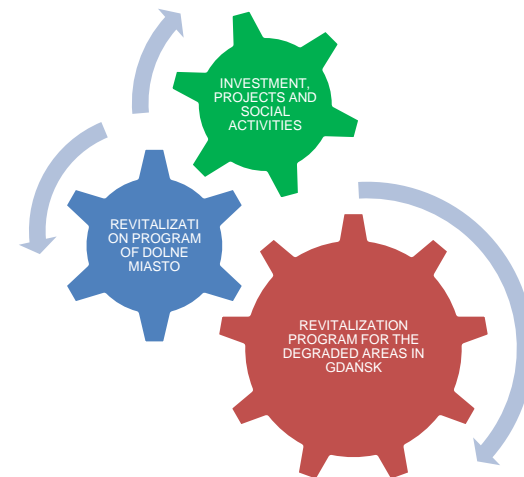

- A social consensus for revitalization plans was built by City of Gdańsk,
- The local people were involved in the development,
- For the needs of revitalization process in Lower Town district was created a broad, multilevel partnership supporting social activation fighting social segregation,
- Success of the renewal and reanimation of this part of the city, which engaged local community on a large scale, encouraged further action.

Innovative character of the project

Revitalization of Lower Town District in Gdańsk it`s an innovative and pioneering model of revitalization which includes investments in infrastructure and social fabric, also exemplifying the key role of the city authorities in coordinating scattered activities.

The essence of the project is the coordination of various activities undertaken by the municipality and project partners in the investment, social and economic spheres in the

We owe the success of the project to full spectrum of socio-economic actions

Social stakeholders:

Caritas Archdiocese of Gdansk , Water Club "The Lions Of Gdansk"

„FOSA” Fundation, „Mrowisko” Association for Preventive Treatment

Municipal Centre for Family Aid, „Kolonia Artystow” Artists’ Association

The process of social participation of the Project:

- Meeting, workshops with inhabitants in the district.
- Meeting developers and investors, focused on the district
- Meeting with social organizations, NGO; focused on social work
- Decisions in the Project taken with full agreement with people
- Participation all groups in the Project all actions
